

Corporate and Broker Multi Language IDX property search

After 5 years of providing 13 language IDX for Realtors, Immobel uses one more word than any other: **YES!**

Corporate / Broker
IDX Multi - Language Module

Even if Immobel does not service listings data for your local MLS organization or REALTOR® Association, we still have a solution for you. You can have a local MLS data pool, in IDX format, for your broker or corporate websites.

See the Coldwell Banker web site in Dallas, Ft. Worth Texas as example www.cbdfw.com, and click on flags in lower left hand corner.

Standard Features

- Every page will be branded** - your company logo and contact information will appear on every search page.
- Your Office Listings** - your own company listings will be shown in a separate tab "Our Office Listings" as well as in the general IDX data pool. This allows you to give an extra emphasis to your in house listings, while still providing access to the larger IDX search.
- E-mail alerts** - registered clients can save search criteria, easily edit it, and receive daily updates of new properties that match their criteria in the language of their choice. From e-mail message the client can continue to search for listings on your web site.
- Email listing to a Friend** - e-mail full color listing brochure to your clients framed in your web site with the detailed information to your company.

Optional Features

- Multi-Lingual Agent Search** - clients can search for agents in your office who speak their language.
- E-marketing package** - includes practical tools like: Registered Client Management Console, Web Site Statistics and many more...
- IDX web sites for Agents** - you may choose to have multi-lingual Agent web sites in the same colors, design and branding as your corporate IDX search for all agents from your offices. Agent web sites can be linked to your main corporate web site.

- # You need to display more than one MLS data pool? **No problem.**
- # Would you like to show the listings from your affiliated offices, even in other states or right across the country? Ask us about a Jumbo Corporate Solutions. **We can do it.**
- # Multi Language Commercial property websites and portals? **Absolutely.**
- # Incorporate translations powered by Immobel into your product lines? **Let's talk.**

No changes to your existing technology, vendors, or web hosting is needed. Easy and affordable.

Did we mention the new markets that showing listings in the viewer's choice of languages could open for you? International. Referral. Relocation. Diversity. Just say **YES!**

Example of agent web site attached to CBDFW web site

Together we speak at least 13 languages of success
